Oriane ONIMUS

Neuroscientist, Principal Scientist, Researcher

I am in my 4th year of PhD in Neuroscience, at the BFA Unit, Université Paris Cité, CNRS. Beyond Neurosciences, my main project also involves Physiology and Metabolism with therapeutic perspectives.

Core business

PHASE 1 **Skill development**

Throughout my professional experience, involving my 3 year of PhD and all along my different internships, I have learned to adapt myself and learn from my own experiments and others. Firstly at a practical scale, learning different technics but also to develop interdisciplinary theorical knowledge (metabolism, biology, Neuroscience) and soft skills required in research such as communicating, leading a project, tutoring students.

Sets his professional goals to be ambitious yet realistic.
Identifies and develops means to enhance his employability throughout his career; manages his professional development.
Broadens and upgrades his skillset, personal qualities and achievements.
Uses his networks to expand his scope of competence.
Knows how to transfer his expertise to other fields of activity.
Realizes the necessarily international dimension of his career path.
