Core business

PHASE 1 **Skill development**

I set professional goals that are both ambitious and realistic, ensuring continuous progress while remaining grounded in practical outcomes. I actively identify and develop opportunities to improve my employability throughout my career and take a proactive approach to managing my professional development. I continuously enrich and enhance my technical skills, personal qualities, and academic and professional achievements.

Sets his professional goals to be ambitious yet realistic.
Identifies and develops means to enhance his employability throughout his career; manages his professional development.
